

Guided Phonics and Reading Comprehension Program

Specialized instruction utilizing the Science of Reading

Reading Ready is your first step to having your child become a successful and confident reader. The science of reading curriculum offers systematic and explicit instruction to give students a solid foundation in reading. Reading Ready's curriculum has multiple comprehension strategies to support the Common Core (K-1) standards. The goal is to develop a solid foundation in phonics and literacy. Parents will see a noticeable increase in their child's self esteem. Once your child reads and comprehends ahead of grade level, they will possess the necessary tools to thrive in school.
